

Radio Science

AN AGU JOURNAL

Special Issue of the 2019 URSI Asia-Pacific Radio Science Conference

CALL FOR PAPERS

The URSI AP-RASC 2019 Special Issue is planned to be published in the peer-reviewed journal *Radio Science*. Papers are subject to the regular review process by the *Radio Science* Editorial Board.

This Special Issue provides a collection of papers presented at the “2019 URSI Asia-Pacific Radio Science Conference” (URSI AP-RASC 2019) held in New Delhi, India on March 9-15, 2019, and will include invited papers (original and review articles) and contributed papers (original articles). It is aimed at reporting progress and recent advances in the radio science research ranging from fundamental theories to various applications, and covers the areas related to all the URSI Commissions A to K.

Suggested topics are: electromagnetic metrology, fields and waves, radiocommunication systems and signal processing, electronics and photonics, electromagnetic environment and interference, wave propagation and remote sensing, ionospheric radio and propagation, waves in plasmas, radio astronomy, electromagnetics in biology and medicine.

All the participants at URSI AP-RASC 2019 who presented papers are eligible for submitting papers to this special issue. It is to be noted that invited papers in this Special Issue are based on invitations by the Guest Editors.

Important Dates for Paper Submissions:

- **March 15, 2019:**
Date first manuscript will be submitted for peer review and the special issue Call for Papers is open.
- **September 30, 2019:**
Date last manuscript will be submitted for peer review and the special issue Call for Papers is closed.

Manuscripts should be submitted through the GEMS Web site (<http://radioscience-submit.agu.org>) for *Radio Science*.
